

HomeStation

Designed to Streamline

HomeStation Electric Vehicle Charger
Styled by Italdesign™.

HomeStation Special Features

Charging Power

Allowing for significantly increased charging speed—with up to 9.6kW of charging power at 40 amps.

Electrical Safety

UL listed for electrical safety (UL2594, UL2231-1&2).

Ease of Use

The unit's 24-ft. cable allows customers to easily reach their EV's charging port.

Adjustable for Your Home

The charger's maximum output can be configured during installation for 40 amps, 32 amps, or 16 amps to fit almost any home electrical panel.*

Installation Versatility

Installation versatility with indoor and outdoor usage rating (NEMA 3R).

Energy Efficient

ENERGY STAR® certified

Wi-Fi Connectivity

Wireless control with the help of the Electrify America app to provide extra convenience and transparency when charging a vehicle.

Flexible Installation Options

Power plug is compatible with the 240-volt outlets found in most households. Unit can also be hardwired by a licensed electrician.

Warranty and Support

Three-year limited warranty (parts only) and 24-hour customer support via a dedicated phone number for home charging.

Home Charging App Features

Smart Home Voice Control

Connect your smart home device to control your HomeStation with your voice using Amazon Alexa or Google Assistant.

Brought to you by Electrify America

Connecting customers to the largest public fast-charging network in the US—allowing them to charge on the road or at home.

*Under no circumstances should the charger be installed without first consulting a certified and qualified electrician.

Specifications

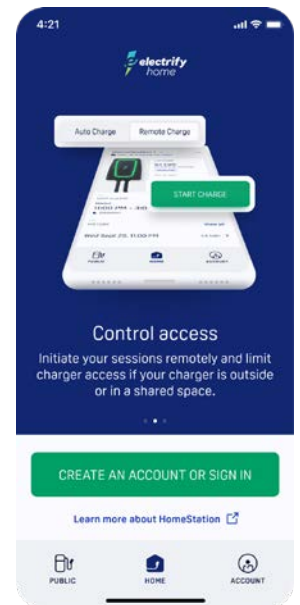

Model	EA2R040JPA10-00
Measurements (HxWxD)	15.75" x 8.66" x 6.75" (approx.)
Cable Length	24 feet
Installation Type	Fixed wall mount
Weight	19.85 lbs. (approx.)
Enclosure Rating	NEMA Type 3R
Input Power	208V–240V AC Split Phase (3-Wire - L1, L2, Ground)
AC Plug-In Cord	NEMA 14–50
Max. Current Rating	40A, configurable to 32A or 16A
Output Power	Up to 9.6kW (240VAC at 40A)
Power Metering	Accuracy +/- 1% at full scale
Charger Connector	SAE J1772
Charging Protocol	SAE J1772

User Interface/HMI	LED Light Ring
Wireless	WLAN with 2.4GHz b/g/n with WPA2
Communication Protocol	OCPP1.6+ JSON Compliant
AC Fault Monitor	GFCI Integrated (20mA CCID for AC)
Short Circuit/ Overload Protection	50A Circuit Breaker (not provided with unit, no GFCI) for 40A Output (Refer to local codes for proper breaker sizing)
Vehicle Communication	Pilot signal (IEC 61851-1:2017)
Certifications	UL2594, UL2231-1&2, FCC Part 15, Class B
Operating Temperature	-22°F to +122°F (-30°C to +50°C) Full Load Thermal Overload Protection: Output power reduced at higher temperatures
Storage Temperature	-40°F to +176°F (-40°C to +80°C)
Humidity	5%–95% (Non-Condensing)

A Smarter Way to Charge

HomeStation features the Electrify America app for managing your charger remotely when you are home, allowing you to connect to the largest public charging network in the country.

- Schedule preferred charging times
- Remote start/stop
- Off-peak charging to lower energy costs (where available)
- Push notifications/reminders
- Multi-charger management – up to 10 chargers from one account
- One account for home and highway
- Sync information between home and public stations
- Smart home voice control with Amazon Alexa and Google Assistant (in development)

CHARGING WITH THE APP

Download our app and manage your charging experience, right from your smartphone.

AVAILABLE FOR iOS AND ANDROID
